1.	Prior to March 1951, the newly activated Volkspolizei Dienststelle (VPD) in Luehlhausen (M 52/H 89) was quartered in the Goermar Kaserne, in the hutment or the northern edge of the town, and, allegedly, in the barracks installation in Langensalza which, at that time, was guarded by a detail of the VPD in Gotha.	1
2.	The VPD had about 1,400 police and was organized into a headquarters, 2 infants Kommandos, and several Sonderabteilungen. *	ry
3.	The unit was equipped with several T-34 tanks, several Soviet mountain guns, as undetermined number of medium and heavy Soviet mortars, 76.2 and 37-mm AT guns	9
K1	and infantry arms. It was said that the unit would eventually be equipped with 27 tanks and 27 guns	
4.	The new training period of the VPD started on ? January 1951 and was scheduled end on 15 October 1951. Training was allegedly conducted on the basis of a new training schedule issued by the central school in Krasnitovsk. This schedule, so other subjects, provides for defense exercises based on a system of three tremand emphasized close-combat training. ***	anong
